### FY23 PROXY VOTING UPDATE

### VOTING EXAMPLES AND RATIONALE

Given our focus on high quality and disruptive businesses that can become leaders in their field, we regularly support proxy proposals across portfolio companies. However, where we disagree with resolutions or recognise improvements, this is reflected in our voting outcomes. Key examples of votes which we have conducted against management recommendations over the FY23 period include:

Company	Date	Resolution	Rationale
Tesla Inc.	Aug-22	Management proposal: eliminate supermajority voting requirements	Voted against management proposal to eliminate supermajority voting requirements, considering the importance of stability and long-term governance and strategy.
IQVIA Holdings	Apr-23	Shareholder resolution: separate chair and CEO roles	We voted in favour of a shareholder proposal that supports the separation of the Chair and CEO roles. We believe separation and diversification of influence is important for sound governance and long-term sustainability of a company.
Illumina Inc	May-23	Various Director appointments	We voted against the re-appointment of multiple directors, given analyst perspectives on their respective governance capability, and high costs to shareholders.
