The condensed interim financial statements of the Fund are for the half-year ended 31 December 2021. The condensed interim financial statements are presented in Australian dollars, which is the functional currency of the Fund.

The condensed interim financial statements were authorised for issue by the directors of the Responsible Entity (the "Directors of the Responsible Entity") on 25 March 2022. The Directors of the Responsible Entity have the power to amend and reissue the condensed interim financial statements.

## **2 Summary of significant accounting policies**

The principal accounting policies applied in the preparation of these condensed interim financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated in the following text.

### **(a) Basis of preparation**

These condensed interim financial statements have been prepared in accordance with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Act 2001. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 Interim Financial Reporting.

These condensed interim financial statements do not include all the notes of the type normally included in Annual Reports. Accordingly, these condensed interim financial statements are to be read in conjunction with the Annual Report for the year ended June 30, 2021 and any public announcements made in respect of the Fund during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The condensed statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities.

### **(b) Significant accounting policies**

The accounting policies applied in these condensed interim financial statements are the same as those applied to the Fund's financial statements for the year ended 30 June 2021.

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the half-year beginning 1 July 2021 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

## **3 Rounding of amounts**

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the condensed financial statements have been rounded to the nearest thousand dollars in accordance with the *ASIC Corporations Instrument*, unless otherwise indicated.

## **4 Comparative revisions**

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current half-year.

## 5 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis.

- Financial assets at fair value through profit or loss (FVTPL)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
  - (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
  - (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).
- (i) *Fair value in an active market (level 1)*

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting year without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the condensed financial statements. For the majority of investments, information provided by independent pricing services is relied upon for valuation of investments.

The quoted market price used to fair value financial assets and financial liabilities held by the Fund is the last-traded prices.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(ii) *Valuation techniques used to derive level 2 and level 3 fair value*

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This may be the case for certain unlisted shares, certain corporate debt securities and managed funds with suspended applications and withdrawals.

Where discounted cash flow techniques are used, estimated future cash flows are based on the Investment Manager's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting year taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

## 5 Fair value measurement (continued)

### (ii) Valuation techniques used to derive level 2 and level 3 fair value (continued)

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Fund for similar financial instruments.

The determination of what constitutes 'observable' requires significant judgment by the Investment Manager. The Investment Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

### Recognised fair value measurements

The following table presents the Fund's financial assets and liabilities measured and recognised at fair value as at 31 December 2021 and 30 June 2021.

As at 31 December 2021	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

### (iii) Transfers between levels

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between the levels in the fair value hierarchy during the reporting period.

### (iv) Reconciliation of Level 3 fair value investments

	\$'000
Balance at 1 July 2021	7,748
Transfer into/(out) from level 3	-

Balance at 31 December 2021	<u>7,645</u>
Total unrealised gains/(losses) for the half-year included in the statement of profit or loss and other comprehensive income	<u>(425)</u>

### (v) Valuation processes

Portfolio reviews are undertaken regularly by the Investment Manager to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities.

Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, the Investment Manager performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

## 5 Fair value measurement (continued)

### (vi) Fair values of other financial instruments

The Fund did not hold any financial instruments which were not measured at fair value in the Statement of financial position. Due to their short-term nature, the carrying amounts of receivables and payables are assumed to approximate fair value.

## 6 Financial assets at fair value through profit or loss

## 7 Net assets attributable to unitholders

Under AASB 132 Financial instruments: Presentation, puttable financial instruments meet the definition of a financial liability to be classified as equity where certain strict criteria are met. The Fund does not have a contractual obligation to pay distributions to unitholders. Therefore, the net assets attributable to unitholders of the Fund meet the criteria set out under AASB 132 and are classified as equity.

Movements in the number of units and net assets attributable to unitholders during the half-year were as follows:

	As at			
	December 31, 2021 No. '000	December 31, 2020 No. '000	December 31, 2021 \$'000	December 31, 2020 \$'000

On 29 October 2020, when the Fund was still listed, the Fund announced a 12-month on-market buy-back program (the previous 12-month on-market buy-back program was announced 25 October 2019). The buyback ended on 29 January 2021 when the fund was delisted.

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets of the Fund. There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.

### Capital risk management

The Fund classifies its net assets attributable to unitholders as equity. The amount of net assets attributable to unitholders can change significantly on a monthly basis as the Fund is subject to monthly applications and redemptions at the discretion of unitholders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unitholders.

## 8 Distributions to unitholders

Distributions are payable at the end of each half-year. Such distributions are determined by reference to the net taxable income of the Fund.

The distributions for the half-year were as follows:

	Half-year ended		Half-year ended	
	31 December 2021 \$'000	31 December 2021 CPU*	31 December 2020 \$'000	31 December 2020 CPU*

\* Distribution is expressed as cents per unit amount in the Australian Dollar.

## 10 Related party transactions

For the purpose of these interim financial statements, parties are considered to be related to the Fund if they have the ability, directly or indirectly, to control or exercise significant influence over the Fund in making financial and operating disclosures. Related parties may be individuals or other entities.

There have been no significant changes to the related party transactions disclosed in the previous annual financial report for the period ending 30 June 2021, with the exception of the resignation of Richard McCarthy from the Responsible Entity's board of Directors on 1 February 2022.

## Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Fund in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

## Responsibilities of the Directors of the Responsible Entity for the Condensed Financial Report

The Directors of The Trust Company (RE Services) Limited (the Responsible Entity) are responsible for:

- the preparation of the Condensed Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*; and
- such internal control as the Directors determine is necessary to enable the preparation of the Condensed Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Condensed Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Condensed Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Fund's financial position as at 31 December 2021 and its performance for the Half-Year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Condensed Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
